Joe,

Just your bag of tricks. Thanks for coming out. I'll be sending a logistics email shortly.

Thanks,

Randy,

I wanted to double check with you, that you don't need any additional viper equipment from ERT. I will be bringing out our robot and rc car to test out. I will also bring our trimble unit that is configured for the NEMA Stream.

I'll be staying at the Holiay Inn, there wasn't any gov't rate left at the Hampton.

I will be buying 2 - 6 foot poles (2" x 4") for probe support unless ERT west has something we could use

When is this stuff leaving Las Vegas? We have the robot and/or RC car to ship as well just trying to figure out if timing wise we can ship to Vegas first or do the pickup in ABQ.

Fred / Ray,

Thank you for your support.

Equipment needs:

1 MCP (will need the sat dish)

2 ATVs

2 carts / buggies for ATV

1 pop up tent

2 folding tables

6 folding chairs

1 large cooler (if you have it)

2 gas cans for ATV refills

Power strips and extension cords

Misc supplies, if you have (zip ties, duct tape, Velcro)

I believe that is it. If there is anything else I am missing, please let me know.

Thanks,

Subject: Haystack Assessment equipment from ERT West
Importance: High

Good morning, Randy

Ray has activated our SERAS contractor to begin preparing the equipment for the Haystack Assessment beginning the week of August 11th..

Have you thought of any other equipment that ERT can provide from our Las Vegas warehouse?

Thanks,

Fred/Ray
